:: BlackBerry®

BlackBerry 8800

FEATURES	BENEFITS
Phone	
Voice Activated Dialing (VAD), smart dialing, conference calling, mute button, speed dial and call forwarding	Provides intuitive call management.
Built-in speakerphone	Allows hands-free phone calls and convenient conference calls with excellent sound quality.
Bluetooth-enabled	Enables hands-free dialog via headsets and car kits.
Exceptional battery life	Up to 5 hours talk time and 22 days standby time.[2]
Email and Text Messaging	
Multiple email account integration	Manage multiple email accounts with the BlackBerry 8800, including your corporate[6] email account. Each mailbox is automatically updated whenever you send, delete, file or read messages on the BlackBerry smartphone.[7]
Push-delivery technology	Receive your work and personal emails without effort. Messages are delivered automatically to your smartphone.
Send and receive text messages (SMS and MMS)	Communicate on the go with contacts who are using phones or other mobile devices that support SMS or MMS.
View attachments	Open popular document and graphic attachments, such as JPEG, Adobe® PDF, Microsoft Word, Microsoft Excel and Microsoft PowerPoint®.
New, optional BlackBerry email address	Choose a unique BlackBerry email address just for your smartphone.
Easy email setup directly from your BlackBerry 8800 via the setup wizard	Setting up your BlackBerry smartphone to send and receive email is quick and easy. And it's just a few clicks away.
GPS (Global Positioning System)	
Built-in GPS	Pinpoint your geographic location. Use the built-in GPS with add-on location-based applications and services for an enhanced navigation experience, employee and resource management, social networking and more.
BlackBerry Maps[3]	
BlackBerry Maps	Save time and cut stress with turn-by-turn driving directions. Find stores, venues and offices in seconds. Send maps via email, and launch maps from your address book. Enhance your BlackBerry Maps experience with the built-in GPS to view your current location and track your route to your target destination. Get there the easy way.
Instant Messaging	
Instant messaging (IM) on your BlackBerry 8800	Stay in touch with all your IM contacts on popular IM communities and corporate instant messaging systems.
Organizer	
Calendar, memo pad and task list	Stay on top of your day – wherever it takes you.
Integrated address book	Quick access to contact information. Email, text and place phone calls directly from one centralized address book.
Desktop PIM synchronization via USB	Synchronize information between your PC or Mac desktop and your BlackBerry smartphone, including calendar, address book, tasks, memos and more.
Browser	
HTML browsing	Delivers a dynamic, highly responsive Internet experience.
Bookmarks	Save bookmarks for one-click access to favorite sites.
Multimedia	
Media player[8]	Plug in a stereo headset, then kick back with your favorite tunes – or watch a news or sports clip while you're catching a flight or your train in to work.
Transfer files via USB and Bluetooth	Transfer media files between your smartphone and your desktop computer easily via the USB cable or Bluetooth technology.
Fun 'n Stuff	
BlackBerry® Authentic Accessories[9] including fashionable carrying cases, batteries and multiple charging solutions. Wallpapers. Ringtones. Add-on applications for both entertainment and personal productivity.	Customize the BlackBerry 8800 to match your life. And make your smartphone truly your own.
Enterprise Ready	
Use it with the BlackBerry Enterprise Solution	The BlackBerry 8800 can work with your organization's BlackBerry Enterprise Solution to provide enterprise class functionality, including advanced security features, push delivery of data from corporate applications, remote address look-up, wireless synchronization with corporate PIM tools and single mailbox integration. Plus, unlike traditional mobile phones, the BlackBerry 8800 can be centrally managed and supported by IT departments.
Built-in GPS and BlackBerry Maps[3]	Your organization's IT department can leverage BlackBerry Maps APIs for implementing new, custom location-based applications and services[10] or for enhancing existing enterprise applications and systems with location-based services.
