Business Data Roaming

Business Data Roaming service allows the business customers who subscribe to GSM postpaid mobile or prepaid mobile to use their mobile phone/smartphone when they travel outside their home country. It offers worldwide connectivity 24x7, facilitating data connectivity for email and Internet services directly from Etisalat without any barrier.

There are two classes of services designed to meet your business needs.

A) Business Data Roaming – Corporate Pooled

It is the first time in the UAE where business customers are offered shared data roaming service and all the GSM postpaid SIMs will be linked with the package subscribed under the corporate account to utilise the applicable free data bundled for international data roaming service. The service is available in 193 countries and with 642 operators worldwide partnered with Etisalat. There are two business zones (Arabia and Business World) with different packages that offer more roaming data bundles based on the business travellers' requirements. Alternatively, worldwide coverage packages are also available.

B) Business Data Roaming – Per SIM

Business Data Roaming Per SIM packages for individual business users are now available suited to the travel patterns of the business community in the UAE. These packages offer an attractive value proposition that enables you to connect to your email and Internet while on the move. It is available in 70 countries that cover major travel destinations through 143 preferred roaming partners.

Service Benefits

- Business connectivity worldwide for Internet and email
- Pooled service offers better utilisation of shared data depending on your business needs
- Data Roaming Pooled package choice can be based on the countries the employees travel and duration of travel
- Pools are independent of the number of SIMs
- Multiple Pooled packages can be stacked for any zone, depending on Roaming Data capacity required allowing customers to grow as their roaming requirement changes
- Convenient to link and delink employee's mobile through B2B for Business Data Roaming Pooled packages
- Competitive data roaming price to plan better
- More data bundled based on package selected for different zones (Arabia and Business World)
- Single operator facilitating worldwide business data connectivity
- Secured roaming connection
